Portfolio Website

My page is intended to serve as my portfolio, showcasing some of my projects, about me, and my work. It is divided into several sections.

1. Home Page

- Background Image: This is an image that is blurred in Toronto.
- Heading: Is a welcome to my webpage
- Buttons: Navigation bar-style buttons meant to guide and direct users

2. About Me

- Introduction Video: Self-made video of me about me
- Profile Image: A baby photo of me made in a circle
- Text: Light paragraph about my future, general information, and interests

3. Projects

- Descriptions: 2 Projects with images linked to source code, and a brief description

4. Contact Me

- Form: This simple form that will allow visitors to reach me via school email

5. Footer

- Provides my email address
- And copyright

Some design features are the use of my flexboxes and hover effects as well as my background image with styling of buttons. This site I created communicates my experience and skills in an easy-to-view way for potential clients or people of interest.
